Lakeland Omelette Maker

Electric non-stick, pivoting omelette maker.

When it comes to the perfect omelette, this Omelette Maker has definitely cracked it. Use the flat non-stick plate to sauté mushrooms, fry bacon, onion, in fact any filling you fancy, before adding your eggs. After about two minutes, flip the whole thing over on its patented hinge, which lets you 'pivot' the pan both ways with ease, before turning out golden brown, melt-in-the-mouth omelettes. No more egg stuck to the side of the pan, or breaking up when you try to flip it over.

Makes one or two 2-egg omelettes. Also suitable for American pancakes and apple turnovers. Recipes incl.

Lakeland Foldaway Silicone Bowl

Sure to become your flexible friend in the kitchen, this lidded bowl folds flat for storage, but when needed, its silicone shape will quickly pop back up. Its versatility means that as well as holding leftovers in the fridge or freezer, it can go straight into the microwave to reheat them; it won't take on the flavour of your food, and is simple to clean. Dishwasher Safe

Lakeland Rechargeable 2-in-1 Cyclonic Vac

Exclusive to Lakeland. We love this 'vac within a vac' - it starts out as an upright with a handy swivel head to get right into nooks and crannies. It also has a low profile to clean thoroughly under furniture, and a bagless, cyclonic suction that packs a powerful punch when it comes to both carpets and hard floors. But here's the really clever bit - just press a button to release the detachable hand-held vac which makes light work of worktop clean-ups and inside the car. It's simple to use and speedy to empty. It's perfect for anyone who owns a holiday home and struggles to lug a hefty vacuum around. And storing it won't be a problem either - the whole handle folds down so it can be conveniently tucked away out of sight. With charging stand
